THE OPPORTUNITY

If you are passionate about building quality products and orchestrating intricate sites then this is a great opportunity for you. Reporting to the Project Manager, the Site Superintendent is responsible for the production, quality and safety of assigned projects ensuring that each project is delivered in accordance with the Company's performance standards while performing their responsibilities, which include:

- ◆ Assisting the Project Manager in the preparation, implementation and monitoring of a construction operations plan, schedule and budget.
- ◆ Monitoring and reporting on actual budgets and project cost reports on a regular basis.
- ◆ Ensuring the adherence to all required safety policies on site.
- ◆ Managing the personnel necessary for the effective execution of assigned construction projects.
- ◆ Maintaining professional relationships with local trades, suppliers, customers, municipality and the general public.
- ◆ Monitoring and reporting on/and ensuring adherence to expectations on quality.

WHAT WE ARE LOOKING FOR

We are looking for enthusiastic individuals who are looking to advance their careers in the construction industry.

- ◆ 5+ years experience in concrete and/or wood frame projects.
- ◆ Ability to foster and maintain strong, professional relationships with local trades, suppliers and consultants.
- ◆ Experience working in a collaborative, high performance, team oriented environment.
- ◆ Superior organizational, and critical thinking skills.
- ◆ Strong written and verbal communication skills.
- ◆ Demonstrated proficiency in MS Word, MS Project and MS Excel.
