

## Architect

**Location:** Vancouver, B.C.

### **About Axiom Builders:**

Axiom Builders prides itself on being a very personable company with serious commitment to building things right. As a leading general contractor of mixed-use, residential, commercial, and special projects, the company is well respected across Western Canada. Our people share a commitment to service, integrity and quality and this collective vision has led to immense growth over the years. Since 2003, we have grown to become one of British Columbia's largest construction companies with over 25 notable projects with 6000 condo units currently under construction. Headquartered in Vancouver, Axiom also has a branch office in Calgary with satellite offices in Victoria, Edmonton and Seattle.

### **About the Role:**

With the challenges faced by Design Teams and Builders, Axiom Builders is looking for a Design professional, preferable an Architect to assist in the delivery of our projects. This will entail working with our Developer Customers, the Project Design team and our Construction Group to ensure efficient delivery of our projects. Further we will integrate design with our Estimating, Virtual Construction and Project Management teams to ensure that we carry out the exact and quality work on our end. Responsibilities include:

- Preparing drawings/models with our BIM team, specifications and other construction documents for use by contractors and tradespersons
- Communicating with different project teams including coordinating with design and technical consultants
- Act as an advisor to the client and work with sites to ensure the design is in accordance with our construction standards and practices

### **What you Bring:**

You are an architect that has a natural skill in building relationships with general contractors so you don't have an ego and you are friendly, nice and professional at all times. You are the liaison between architectural firms and our business and will take over the leadership of the design. You enjoy working with trades, working with BIM and can communicate designs and drawings effectively to all levels within an organization.

### **Our Must Haves:**

- Over 10 years of experience working in an architectural firm, ideally experience with residential high-rise/towers
- Knowledge of industry standards, current product development, BIM, and architectural practices.

- Good working knowledge of architectural design documentation, detailing, building materials and codes, construction techniques, as well as building material compatibility and characteristics.
- Service oriented communication skills and the ability to build relationships and trust with our clients and their architects
- Bachelor's degree in Architecture or a closely related field

### **Your Rewards:**

Axiom distinguishes itself from our competitors not only by our level of quality, but also by our commitment to our staff. At Axiom, we offer a very competitive compensation structure that supplements your regular income with a robust benefits package:

- **MSP, Medical and Dental Coverage:** Our industry leading benefits package covers you and your dependents at no cost
- **RRSP Matching Program**
- **Professional Development Support**

### **How to Apply:**

At Axiom Builders Inc., we are always on the lookout for talented people who are passionate about what they do. If you love what you do, and believe that with the right tools and opportunities you can do the best work of your life, please submit an application to our [careers portal](#). While we can only respond to shortlisted applicants, we will keep your information on file and consider you for future opportunities as they come available.
