

## Senior Development Manager

**Boffo Developments Ltd**, one of BC's most respected developers, has an exciting opportunity for an individual who is passionate about the design and development of high quality, multi-family, high-rise residences.

Over the past 45 years, Boffo has built thousands of homes and has earned a reputation for developing exceptional residential communities throughout the Lower Mainland.

This position is for a Senior Development Manager reporting directly to the Vice President of Development. This individual will play a key role focused on exceptional space planning and innovative design, targeted to discerning homeowners who appreciate our attention to detail.

Responsibilities include:

- Work directly with consulting team of architects and engineers to achieve defined goals of space planning and architectural design
- Initiate and manage the rezoning and development approval process from initial discussions with municipal staff through occupancy permit
- Monitor and coordinate full suite of consultant drawings to ensure design intent is translated into the built form
- Develop and nurture a lifelong passion for design innovation through observation, curiosity, education and a never ending pursuit of excellence

Requirements include:

- 5+ years experience in high-rise residential and mixed-use design and development
- Multi-family architectural design experience will be considered an important asset
- Demonstrate analytical and problem solving skills, with the ability to exercise good judgement
- Extraordinary time management skills with ability to prioritize demands
- A solid understanding of the municipal development approval process
- Strong interpersonal, communication and presentation skills
- AUTOCAD, Sketch-up and Photoshop is an asset

If this describes you, please submit your resume and cover letter to [careers@boffo.ca](mailto:careers@boffo.ca).
